## MEASUREMENTS

Measurements	cm <input type="checkbox"/>	inch <input type="checkbox"/>
Torso (T)		
Hips (H)/ All H		
Leg pad (L)		
Weight (kg)		
Height (cm)		

**Torso (T):** While standing erect, measure the distance between the point at the top of your hip bone (where your belt goes) and the hollow at the base of the throat.

**Hips (H):** While standing erect, measure the distance between the both hip bones trough your back. All hip around is your full hip measurement

**Leg pad (L):** Measure from the same top of hip bone, through the crotch and back to the point of the hip bone, where you started.
